Career Objective

Analytical and detail-oriented B.Tech (CSE) graduate (2025) with hands-on experience in Python, SQL, and Power BI through academic projects. Skilled at collecting, cleaning, and visualizing data to deliver actionable insights. Seeking an entry-level role as a Data Analyst, SQL Developer, or BI Analyst to contribute data-driven solutions that improve decision-making and business efficiency.

Technical Skills

- **Programming & Data Tools:** Python, NumPy, Pandas, Matplotlib, SQL
- **Data Visualization & BI:** Power BI, Excel (Pivot Tables, Dashboards)
- **Development Tools:** Jupyter Notebook, VS Code, GitHub
- **Core Competencies:** Data Cleaning, Data Validation, Reporting, ETL, Visualization, Dashboard Design
- **Soft Skills:** Communication, Problem Solving, Attention to Detail, Collaboration, Teamwork

Education

Nadimpalli Satyanarayana Raju Institute of Technology (NSRIT)	CGPA: 8.24 / 10
Bachelor of Technology (B. Tech) – Computer Science & Engineering (2021-2025)	
NRI Junior College (2019-2021)	Grade:850/1000
Z.P High School (2019)	CGPA:9.0/10

Experience

- Deloitte Australia Data Analytics Job Simulation on Forage | December 2025 | Deloitte
- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions

Projects

Bank Account & IFSC Code Validation | Python, Pandas, Regex, Matplotlib

- Engineered a data validation system to verify financial data accuracy.
- Automated cleaning pipelines to handle missing, duplicate, and invalid values.
- Applied Regex for precise format validation and pattern checking.
- Produced visual reports showing valid vs invalid records, improving data quality by 90%.

Sales Performance Analysis | MySQL, Excel, Data Visualization

- Conducted SQL-based data extraction and transformation for performance analysis.
- Designed interactive Excel dashboards visualizing sales, profit, and region-wise trends.
- Utilized joins, aggregations, and subqueries to produce advanced reports.
- Found that the Technology category achieved the highest profit and the North region generated top revenue.

HR Analytics Project – Employee Attrition Analysis

- End-to-end data analysis on ~1.4K employee records using Python, SQL, Excel, and Power BI
- Data cleaning, exploratory analysis, and KPI calculation
- HR metrics: Attrition rate, retention rate, department-wise analysis
- SQL querying with joins and conditional aggregation
- Interactive dashboard development for business insights

Achievements & Strengths

- Delivered consistent improvements in data quality and reporting accuracy.
- Recognized for strong analytical and visualization skills in academic projects.
- Quick learner passionate about data analytics, SQL optimization, and BI tools.
- Excellent collaborator with strong communication and organizational abilities.

Certifications

- AWS Cloud Partitioner Essentials.
- Prompt Engineering with AI Models.
- Python Programming.

Languages

- English — Professional Proficiency
- Telugu — Native Proficiency
